

# THE BEACH BOY

We're all going on a summer holiday

WORDS: DAVID TAYLOR

## BEACHSIDE BLAZER

Inspired by the opulent Art Deco era of the French Riviera, the aim of 209 Mare, in the words of founders Federico and Gabriel Uribe, is to “bring the gentleman back to the beach”.

The 209 blazer is a combination of a jacket and a bathrobe, with the lining made from bamboo fabric, which is three times more absorbent than a cotton towel. It’s also completely biodegradable, and takes a third of the water cotton needs to produce. Bamboo’s natural antibacterial properties also mean that the 209 blazer is less vulnerable to bacteria – including body odour.

The brand also produces swim shorts, monochromatic to match the blazer. Only 209 of the blazers have been made, so move fast to suit up in the sand. 📍
